

FREEDOM 14

Pictured with optional Anchor Boom.

QUICK DEPLOYABLE OUTRIGGERS

Deploying outriggers from the seated position is a snap.

NEW

OPTIONAL MOTOR MOUNT

Stern-mounting trolling motor easily detaches for transport and storage.

I just picked up my Freedom 14 at my local dealer. WOW! This kayak is super stable. Once outriggers were deployed I could walk to the edge of boat even with my dog in it. No matter how hard we tried, we could not tip it or take on water.

~J.N., North Carolina

AVAILABLE COLORS

The **Freedom 14** was the **original Freedom Hawk** which **started the stand-up kayak fishing revolution**. Designed by avid fishermen and outdoor enthusiasts this boat features its patented easy to deploy outrigger system which switches from traditional kayak shape to a Y-Shaped sporting platform by simply moving the two outrigger levers forward or back. Imagine changing from kayak efficiency and simplicity to Jon Boat stability with the simple flick of a lever. The **Freedom 14** offers the equivalency of an **8 foot beam** and boasts of being the only kayak to truly let you “Stand-up and Fish” with unmatched 100% confidence.

For 2012 the **Freedom 14** features inserts in the hull to accommodate an **optional motor mount** which will support

a 30-40 thrust electric trolling motor. The **400 pounds of capacity** will allow the use of full size marine batteries, and still offer unlimited space for large anglers and all their extra gear.

Designed to be fished in lakes and ponds, all the machinery is saltwater corrosion protected making the boat perfect for bays, harbors, flats and light sea conditions.

Don't settle for aftermarket clumsy add-on outriggers or false claims of stand-up fishing stability... The Freedom 14 offers a patented and tested flats fishing and sight fishing craft guaranteed to catch you more fish.
