

FREEDOM 12 - NEW FOR 2010

MULTI-POSITIONING OUTRIGGERS
Tri-position outriggers increases performance options.

OPTIONAL MOTOR MOUNT AVAILABLE
Stern-mounting trolling motor easily detaches for transport and storage.

The NEW **Freedom 12** represents the next generation of Freedom Hawk Kayaks taking *Stand-Up Kayak Fishing* to a new level.

This ultimate fishing machine features a patented outrigger system now gives the anglers a choice of 3 positions. It paddles like a conventional kayak when they are in the first position. Position two offers additional stability when fishing or rigging a rod. The third position fully extends the outriggers into their patented "in-line position" for maximum efficiency when paddling, fishing or poling. Now you can stalk fish with less drag and water move-

ment or gain additional paddling stability in more challenging paddling conditions.

The **Freedom 12** also features a new light weight hull featuring a break down carrying weight of only 49 pounds.

There's only one fishing kayak, innovative and stable enough to put yourself in position to catch more fish, the New **Freedom 12** by Freedom Hawk Kayaks.
